COMPLAINT is made that deer are ruthlessly slaughtered in the 'Adirondack' wilderness, during the fall months, by the use of dogs, in defiance of the gamelaws, which prohibit the pursuit of deer with dogs at any time. It is said that at least four hundred deer have been daily killed during the fall months this year. At this rate, soon the deer will be wholly exterminated.

Horse raising has become a large business on the ! Western plains. Some of the herders on the Yellowstone have from five hundred to fifteen hundred head, and are making fortunes hy selling the three-year-olds at \$50 to \$100 each. No grain is fed and no stabling is provided, abundant grass and rough sheds | 000, and the Mayor favors saling it fifty per sufficing. The business is exceeding cent. laborious and risky, an entire herd being ities in South Carofina range from 21,961 to sometimes lost in a night by scattering 7,386 or Indian raids.

HICKMAN, FULTON CO., KENTÜCKY, FRIDAY, DECEMBER 20, 1878.

Pharp winds that blow in guess about The sciens of the lusty days.

In jocund freedom Isugh and shout
Though all the mellow woodland way.
The trees, not all denu'el yet
Make ample glits of leafy gold;
Like Age with children profligate.
That pays the pelf it cannot hold.
What time with sunken cheeks and eyes,
and him how a ball the freeholder see. And thin-blown hair the frembling eage cholds the hands of ruthlers held Auticipate their herlings.

BY JOHN ANTROBUS.

Ambrovial I uits are tessed about; In haraled heaps the summer sheaves Through mesdow lanes drift in and out With sirmaken pods and dying leaves. The breez -blown frees of the hills, Ajaunt with caps of frasty rime. Are first of merry wassaillers. Are first of merry was salllers.

Assembled 1 r the Chrismasetton.

The holly burts in burnished aren

Through frondest tents of gold and red;

The mistletoe now waves unreeu

Its wintry crown o er monarchs dead.

Like those who are at the funeral feast,

Grown merry with the last bequest,

They furnish from the point of death

The garlands for the coming success.

A shriller wind from yonder wool

Now pipes and through the chimney calls;
While fiful gleams of wintry light

Make dancing shadows on the walls.

And children by the window-pane
See gorgeons flora wrought in frost,
And love-forn maidens trace in vain
The names they breathed, and be atthirg, lost
The sea-coal fire that flames and dees,
And many a Gothic legend sings,
Now woos to magic reveries
And dreams of nigh forgotten things.
Queer figures grave and gay appear Queer fixures grave and gay appear And not fantasic through the smoke; And all the wickel clees are there! In pantomime, with fairy folk.

Anon the night, with keener blast," Shall press against the window-pane;
And o'er the wool shall sift the soow,
(Ir o'er the wold shall beat the rain.
Then thought, beside the lighted lump,
Shall there unlock its garnered things:
And all the treasures loved in books The winter fireside only brings
The Youth and Love shall kindle hope,
And Manhood share a calm repose;
While Age shall tread the downward slope
In soften beauty to its close nd gentle as the voice of prayer, The rwestest ballads of old lime half fill the pause of gulless jet With dreamy tinnes and ancient rhyme.

The story then the sage shall tell: "There is no time in all the year.
That hash not some slad charm or spell. To see the our cheskered journey here. I've known the follest joys in Spring.
The authors' chadlest down one mine. The 'ummer's gladdest days were mine:
The jocused Antumn laughed with no.
O'er fagons filled with narvest wine.
And Winder! why, its lusty breath
liath blown the crust of cares away,
And waked the energies divine
The soul that might have known decay.
The fire cled trumper's of the winds. The fier, glad trumpet of the winds, That sulkes the frostel harp of pines alutes the closing year with toues In harmony with God's designs.

out of him. Horses are like men; some | haskets will hold about one hundred and there are many grades of intelligence, After landing, the shrimps are placed too. I have a little Kentucky thorough- in vats of boiling water, with a fire unbred that knows everything, or would derneath, and boiled for about half an know if I had time to teach him. As it hour, heing frequently sprinkled with Frederetta, in a loose white wrapper is he has picked up all I have wished to coarse salt. They are then spread out impress upon his wicked little soul. Oh. on hard, dry ground and left to dry and American sorses learn quicker than this time the shells, spawn and dirt are commenced to carry out the things of any other sock; but they also forget either detached or in such a dry and

more blood thu other animals. I claim dity in that country, the export trade steeped in a teapot containing equal parts the details of the return of the property from two to three and a half cents per sesses the most virtue, though the leaves involves the salvation of the bank. If pound Delivered to restaurants the arc good till they are dry when they lose there is any responsibility for this, it there is any responsibility for this, it there is any responsibility for this, it cipat camps of Chinamen are in the in-

four cents per pound. A use has also been discovered for the shells, and they are shipped exclusively to China. There they are valuable as manure, and s a poison to the worm which works such destruction to the tea plant of that country. There is nearly as much profit from the sale of the crushed shells as from that of the shrimps themselves. The Chinamen state that this is the only remedy at present known for the tca

virtues than those of any fertilizer. The extent to which the business of shrimp catching in the Bay of San Francisco has advanced is most remarkable. The amount of business at first hands will reach \$15,000 per month, and new markets are constantly opening At certain periods the demand is so grea well-known stables of Rentz Carri & that two trips into the bay are made Salamanschi. I am in love with my daily, which nearly doubles the amount work, which I am pleased to call a high of ordinary supply, and necessitates the employment of a large force of extra mer The most serious disadvantage of the trade is that it can at present be prosecuted only during the dry season, the rain preventing the exposure of the shrimps for drying purposes. This difficulty will probably be obviated as the business enlarges by the drying and instead of the open air, during the
